## SUMMARY

I am a passionate self-taught front-end developer. I love coding creative UIs and bringing designs to life with clean, efficient code. My expertise includes building responsive and user-friendly websites and applications, constantly learning and adapting to new technologies and trends to deliver the best digital experiences.

## POFEECIONAL EXPERIENCE

- Participated in two projects, collaborating with clients to develop and maintain user interfaces.
- Implemented responsive design and ensured cross-browser compatibility.
- Utilized Git for version control and collaborated using GitHub.

## PROJECTS

### ▪ MedC

- **Description:** An educational app for medical students thst features a vast collection of questions for every medical course, each accompanied by detailed answer explanations.
- I am responsible for developing the mobile app UI, ensuring an intuitive and user-friendly experience. Additionally, I have applied Shadcn UI to the website to enhance its visual appeal and usability.
- **Technologies:** NEXT.Js, tailwind CSS, Shadcn ui, React Native (expo).

### ▪ BABEL library

- **Description:** A library app that offers a diverse collection of books, each with comprehensive information. It includes features such as a search bar, the ability to add books to your favorites, a reading progress tracker, and a dedicated screen for adding your favorite quotes.
- **Technologies:** NEXT.Js, tailwind CSS, Shadcn ui, React Native (expo), firebase, Figma
